General statement of policy

The policy of the Resource Centre is to provide and maintain safe and healthy working conditions, equipment and work methods for all employees and users of the Centre. In particular we seek to ensure that the Centre is both accessible and safe for disabled people.

We shall provide all necessary information and training to staff and maintain a programme to foster the awareness of health, safety and welfare issues.

The allocation of duties for safety matters and the specific arrangements to implement this policy are set out below. This policy and the way in which it operates will be reviewed annually by the staff team and the management committee.

This policy was updated in June 2023.
