

Information

We aim to provide straightforward, useful information to help people run community and voluntary groups.

Our information sheets are simply written and aim to cover the essentials of running a group and its activities. Many sheets include links and contact details for further sources of information and support.

We update these information sheets regularly and add new titles when we can. If you are looking for information on something not listed here, please contact us - we may be able to help.

Choose a category from the menu on the left to see the list of information sheets available.
